

Excalibur

Excalibur is a quality double skin office and factory steel partitioning system.

Excalibur is a modular system for enclosures & divisions where appearance, strength & insulation are required.

Panel Sections -

Available in: full steel, steel/glass/steel, steel/glass, fully glazed, and chair rail glazed.

Dimensions (mm) -

There are four standard heights available: 2440, 2745, 3050, and 3660.

All are available in widths of:

300, 400, 500, 600, 700, 800, 900, and 1000.

Finish -

All panels are supplied with a TGIC and lead free powder coat, to an average thickness of 70 microns. Partitioning is available in Sandstone BS.08.B.17, Grey BS.0.A.05, Grey RAL 7037, or White RAL 9010. However, non-standard and corporate colours are available upon request.

Excalibur is a quality double skin office or factory partition, offering a versatile, attractive appearance for the working environment.

Panels can be supplied in a fully fire-rated version to BS 476: Part 22: 1987. Noise reduction capabilities can also be offered.

Excalibur is offered complete with a full range of proprietary suspended ceilings with tiles that cover the full spectrum of textures and styles. Excalibur is a cost effective answer to all your space management problems.

Single or double glazing is available to suit specific requirements and needs.

Lock & handle units are integrated; however, a selection of locking options is available.

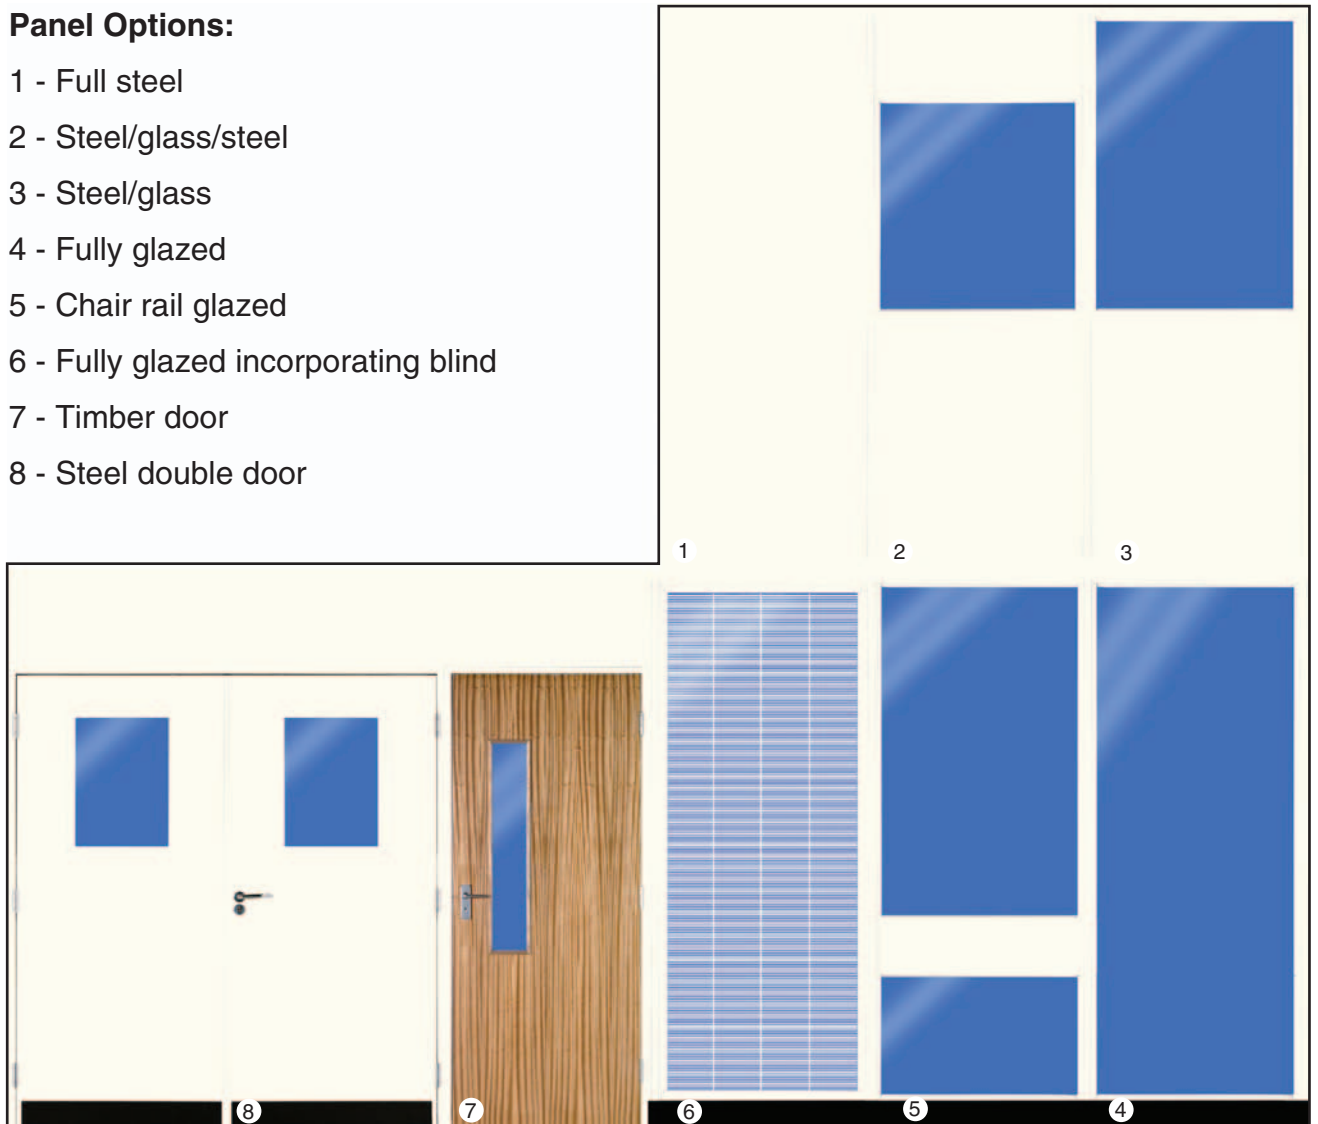

Heavy duty top capping is used when the panels need to be multi-tiered.

Excalibur
